One of Mr. Courtney's best friends was baseball immortal Cy Young. For several years he acted as personal manager for the great pitcher.

MR. Courtney headed the Canton Little League project which started in 1948. It was successful beyond expectation and soon the entire state was seeking information on

the program. National Headquarters of the Little Leagues soon named him Ohio Commissioner. During his tenure he devoted much time to set up programs for youngsters.

# the BOOK for EVERYONE **WORLDWIDE BIBLE READING** AMERICAN BIBLE SOCIETY

Yes, faces are different the world over. But hearts have a common hunger. For Hope . . . Life . . . Truth.

Therefore, expressing the fervor of the citizens and churches of this brave, free land, the American Bible Society has sought for 144 years to

translate and distribute the Scriptures for every nation and tribe. Many local congregations, directly or through their denominations, are supporting this vital work. In addition, the suggested readings which appear regularly in these advertisements are provided by the American Bible Society, and reach you as another contribution of American citizens and churches to this important cause.

You see, worldwide Bible reading is the simple, practical expression

of one of our fundamental convictions: The Bible IS the Book for Everyone. Tonight—at the dinner table or in a quiet moment—millions of American homes will put that conviction into earnest, reverent, daily practice! Will yours?

### THE CHURCH FOR ALL . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

## Bomber Era Not Ended

Is there a significant shift in thinking on the value of bombers as compared to missiles? Last spring the Defense Department all but killed off the program for building the B70 "Valkyrie" bomber. A desperate plea by the Air Force saved a pilot project, but the delivery date for the first B70 was delayed from December of 1961 to one year later.

Now the Defense Department has put \$55 million more in the budget this year for the B70, for a total outlay of \$265 million. This is less than the \$463 million the Air Force wanted, but it will result in resumption of work on the military components of the program.

One advantage of the manned bomber is that it can go part way to its target and be recalled. Also, it can sneak in over and past enemy radar nets. But the most interesting capability of manned bombers is as a 'launching platform' for ballistic

## **Pottery Union Hints Strike** On Dec. 1

EAST LIVERPOOL, Ohio (AP)-The International Brotherhood of Operative Potters has served notice on the U.S. Potters Association that its members will follow a "no contract, no work" policy when its two-year agreement expires Dec. 1.

The announcement was made in the union newspaper, "Poters Herald "

The statement follows two futile attempts to negotiate a new contract. The union newspaper reported that at the start of the negotiations in New York, Oct. 3. the association had proposed putting wages back at the 1957 level. The union interpreted that offer as equivalent to a six-cent hourly reduction in wages.

Subsequent meetings in Cleveland earlier this month produced an offer from the association which the union said would result in an increase of 31 cents per month in wages. Those talks ended

The current average hourly wage is \$2.25 for men and \$1.69 for women workers.

Clair Willmeth, federal mediator at the Cleveland negotiations, announced talks will be resumed in that city, but no date has been set for resumption of the negotiations.

The association represents dinnerware manufacturers who employ 4,900 workers in nine plants.

Hope you like it

Now is the time to start planning the menu for that day.

Pumpkin pie is a tradition with Thanksgiving. Here is a recipe that is worth trying.

The method for making the pie crust is a little different. You will not need a rolling pin and you'll save on other utensils, too.

In your pie pan mix together the dough into place with your fingers. That's all there is to it. Now you are ready for the filling.

This pie crust may be used for any one crust pie that you desire. It is flaky and has a good flavor.

The ingredients for pumpkin pie filling are: 1 rounded cup of pumpkin, 2 eggs, 1/4 teaspoon salt, 1/2 cup sugar, 3 rounded tablespoons flour, 1 tablespoon melted butter, 1/2 cup milk (part cream), 1 teaspoon cinnamon, 1/2 teaspoon nutmeg, 1/8 teaspoon allspice. 1/8 teaspoon cloves. Mix pumpkin, salt,

## Loan Program

New Regulation Went Into Effect October

Farmers who have regular offfarm employment, if otherwise eligible, may obtain farm operating and development loans from the Farmers Home Administration under the recently revised regulations of the agency.

Wade E. Jeffers, Farmers Home Administration county supervisor for Madison, Franklin and Pickaway counties, said the new regulation went into effect October 1. Previously, except in rural development counties, a farmer had to spend most of his time farming in order to qualify for a loan.

Experience gained in rural de velopment counties has shown that many farmers who are regularly employed off the farm can profitably use the Farmers Home Administration's credit facilities to increase the farm portions of their toal incomes.

The regulation which had limited credit assistance to farmers who spend most of their time farming, prevented some from obtaining the maximum income from their farms and from taking advantage of opportunities for industrial and other off - farm employ-

Other eligibility requirements remain unchanged. Chillicothe Bowling Lanes, Inc., owners of the new 16-lane bowling center announced that interior decorating and installation of Brunswick equipment is complete and ready for use.

Plans are under way to provide several outstanding attractions at the grand opening, including match games with Al Savas, exhibition bowler, and personal instructions by Savas.

Prairie Lanes, Circleville's newest recreation facility, provides bowlers in this area, with the most modern equipment available including Brunswich Crown Imperial lanes, Brunswick automatic pinsetters. Tel-E-Fouls, subway ball returns and Tel-E-Scores.

THE half - million recreation center also will feature a supervised playroom for use by the children of bowling mothers.

Additional facilities of Prairie Lanes include locker rooms, league meeting room, cocktail lounge, snack bar, and pro equipment for custom fitting to individual bowlers.

The grand opening is dated for 7:30 p.m. Sunday with a ribbon cut-2:30 p. m. with a match - game between Savas, internationally famous bowler, and a local opponent.

ball and is denoted with a cross.

Going on with the scoring, Susa says when the bowler scores a spare, he adds the ten he just scored to the number he knocks down with the first ball rolled in the Prairie Lanes was completed next frame. For example, if after felling all ten pins with the first two balls, he knocks down nine with the next one, his score for the frame is 19.

If his next ball knocks down the remaining pin, he has another spare, and the process is repeated.

When a bowler scores a strike he adds to the count of ten the result from his next two balls. For example, if his first ball is a strike, the next one is a strike, and the third puts down six pins, he scores 26. If all three balls are strikes, he scores 30, perfect score for one frame. A perfect game of 300 is scored by bowling 12 strikes in a row.

WASHINGTON (AP) - Presi- | week he named Clifford, who had | volved in the transfer of power. dent-elect Kennedy is off and run- and speechwriter in the 1940s, to ning. But speed alone is not enough. In these next 10 weeks Eisenhower people. his wisdom in preparing to take over the presidency will affect his whole administration.

Before he is sworn in Jan. 20 he must pick the key administrators and advisors who will help him run the government, figure cies with the idea of improving eral. what it will cost to make good on them. eampaign promises, and blueprint the plans he lays before Congress.

Kennedy has already named some immediate aides and chosen others to come up with recommendations soon on setting up shop. Then he started Friday on a Thanksgiving—Nov. 24. brief vacation. He'll have no rest after his return.

Since Kennedy and Vice President Richard M. Nixon were both optimists about their chances, both got busy weeks before the election on the problems of transition from President Eisenhower's administration to the new

Each named a representative-Kennedy's was Clark Clifford, his personal attorney-to work with Laurin L. Henry and others at the Brookings Institution here in Washington where presidential transition was being studied.

Henry has just finished a book, to be published Nov. 28, on the problems of transferring power from the outgoing president to the new one. His studies cover the presidents back to Woodrow Wilson.

He points out that in 1952, before Eisenhower was elected, some of his rich friends hired a management consultant firm to study and make suggestions on the task of recruiting executives for his new administration.

So Eisenhower got off to a fast start when he won.

Within five days after his victory he made a choice No. 1: Henry Cabot Lodge-Nixon's runping mate in the 1960 campaign-to represent him in dealing with the outgoing administration of President Truman.

And, after a brief post-election vacation, he began naming Cabinet members by Nov. 20.

Two days after his election this or 90 other jobs most closely in- tal task.

But Kennedy decided to wait a little longer than Eisenhower before naming his Cabinet. While Eisenhower started on his by Nov. 20, Kennedy said he won't announce his choices until after

Clifford and Landis, by the jobs assigned them, will be powerful forces in shaping Kennedy's new administration. But that doesn't necessarily mean they will become part of it or want to.

Landis has had a lot of government service. Clifford, a brainy and successful Washington lawyer, feels his years as part of the Truman regime were plenty.

One of the president-elect's most pressing needs is picking a man-probably the one he'll name his director of the budget - to work with Eisenhower's people on the outgoing administration's budget which goes to Congress in January.

Understanding the Eisenhower budget-the outgoing President's idea of what it will cost to run the government another yearis going to be of critical importance to Kennedy.

He'll have his own ideas on where and what should be spent and will have to work out a budget of his own to use with Congress. Since his programs are different from Eisenhower's, the budgets won't be the same.

Clifford, who has been working on his assignment for weeks, considers the four most important Cabinet jobs to be those of the secretaries of state, defense, treasury and attorney general.

Kennedy has given no indication of his choice for any of them. Clifford is already emphasizing position to dish them out. that top priority-besides the Cab-

One of the most important, and still rather nebulous, questions facing Kennedy is how he will deal with Congress and through

Eisenhower used to call batches of congressional leaders to the White House for meetings with himself and perhaps 10 to 15 members of his staff. This was a heavy, cumbersome way of getting Congress to do what he want-

Kennedy is apt to limit himself pretty much to meetings with a few top Democrats in the House and Senate, along with Vice President Lyndon B. Johnson who will preside over the Senate

Johnson, who was of precious help to Kennedy in the campaign in keeping Southern Democrats in line with Kennedy, should be close to indispensable in helping Kennedy with Congress.

Johnson, Democratic leader of the Senate since 1954 and a master manipulator, is also the protege of Sam Rayburn, speaker of the House and the most powerful single force on that side of the Capitol.

Kennedy's relations with Congress will be crucial in trying to make his campaign promises and tion shapes up as a dilly between programs a reality since most of the defending champion Boston them have to go through Congress | Celtics and the Philadelphia Warwhere a majority of Democrats riors. and Republicans are conservative. The Warriors and the Celts, running 1-2 in the East, knocked off the Western Division's top two few, if any promises, to anyone teams, the St. Louis Hawks and about what he'd do for them if he the Cincinnati Royals, Friday

Undefeated Philadelphia downed St. Louis 117-112 for its ninth straight victory and Boston turned back Cincinnati 128-110 for its fourth success in six outings.

In the league's other game, the New York Knickerbockers broke a six-game losing streak with a 112-108 victory over the Syracuse Nationals.

Wilt Chamberlain's 37-point output spearheaded the Warriors. The Hawks, Western Division lead ers with a 6-2 record, were sparked by Cliff Hagan's 22

In the Boston-Cincinnati game, the expected individual duel between Oscar Robertson, the Royals' heralded rookie and Bob Cousy of the Celtics, failed to materialize. Robertson was held to 17 points. Cousy, used sparingly because of a thigh muscle injury, scored 6.

### 67 Bushels to Acre Said Ohio Corn Average

WASHINGTON, (AP) -Ohio's 1960 corn crop has been estimated at 261,568,000 bushels by the Agriculture Department out of a national crop forecast of 4,378,724,000

The department predicts an Ohio corn yield of 67 bushels per acre The forecast for other major Buckeye State crops include:

Soybeans for beans-25 bushels yield per acre and 39 million bushels production. Sugar beets-15 tons per acre

and 330,000 tons production.

Yankee outfield prospect Don Lock set an Eastern League record last season with 35 home runs for Binghamton, N. Y. The old mark of 28 was set by Rocky Colavito in 1953.

## Ohio School Issue Support Growing

COLUMBUS, Ohio (AP) - A complete unofficial tabulation of school operating levies made by the Ohio Education Association showed today that they received strong voter support Tuesday.

Out of 535 levies submitted, 510 were approved (95.3 per cent). In the November 1959 election voters approved 93 per cent of the 549 issues on the ballots.

Fifty school districts took advantage of a 1959 law which permits school operating levies, once voted to run until repealed. The same law authorized school districts to submit levies for a maximum of 10 years (formerly five years). Out of 114 proposed, 106 10-yearlevies passed

Voters in some areas appeared to be reluctant to approved increased operating funds. Of the 25 levies which were defeated, 20 were for additional millage.

When Mickey Mantle homered in the second game of the 1960 World Series it marked the seventh straight World Series in which he has hit at least one homer. .

When Yogi Berra singled with the bases loaded in the second World Series game in Pittsburgh it marked his seventh hit in 12 trips to the plate against Clem Labine in World Series competition.

## Ohio School Issue Support Growing

COLUMBUS, Ohio (AP) - A complete unofficial tabulation of school operating levies made by the Ohio Education Association showed today that they received strong voter support Tuesday.

Out of 535 levies submitted, 510 were approved (95.3 per cent). In the November 1959 election voters approved 93 per cent of the 549 issues on the ballots.

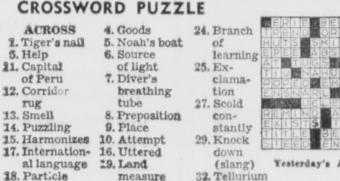

Fifty school districts took advantage of a 1959 law which permits school operating levies, once voted to run until repealed. The same law authorized school districts to submit levies for a maximum of 10 years (formerly five years). Out of 114 proposed, 106 10-yearlevies passed

Voters in some areas appeared to be reluctant to approved increased operating funds. Of the 25 levies which were defeated, 20 were for additional millage.

When Mickey Mantle homered in the second game of the 1960 World Series it marked the seventh straight World Series in which he has hit at least one homer.

When Yogi Berra singled with the bases loaded in the second World Series game in Pittsburgh it marked his seventh hit in 12 trips to the plate against Clem Labine in World Series competition.
